

## Processing Out:

1. Did the gait compromise affect your results?

---

---

---

---

---

2. Explain how your “Control” graph is different from you “Test” graph.

---

---

---

---

---

3. Why is it important to study the effect of gait compromises?

---

---

---

---

---

4. Did you accept or reject your hypothesis? Explain.

---

---

---

---

---
