

Activity "Administrivia":

 Grade Levels 6-8 

Relevant TEKS:

7th Grade Science

7.12 Organisms and environments. The student knows that living systems at all levels of organization demonstrate the complementary nature of structure and function. The student is expected to:

- (B) identify the main functions of the systems of the human organism, including the circulatory, respiratory, skeletal, muscular, digestive, excretory, reproductive, integumentary, nervous, and endocrine systems;
- (C) recognize levels of organization in plants and animals, including cells, tissues, organs, organ systems, and organisms;
- (F) recognize that according to cell theory all organisms are composed of cells and cells carry on similar functions such as extracting energy from food to sustain life.
