

# ACTIVITY 2C: THE ORIGIN OF BONE NAMES

## STUDENT WORKSHEET—BONE NAME ACTIVITY

Obtain a “Bone Card” from your teacher. Read through the information provided on the card and use that information into the chart below.

<p><b>Derivation</b> (Include information such as the word from which the name of the bone was derived, the language from which it was derived, the date[s] of use, etc.)</p>	<p><b>Original Meaning</b> (Write information about the original meaning of the bone’s name and /or an explanation of its history. Include a drawing to illustrate the word.)</p>
<p><b>Location of Bone</b> (Find the bone and shade it in on the skeleton drawn below.)</p>	
<p><b>Name of Bone</b> (Write the scientific and common names of the bone discussed on the “Bone Card.”)</p>	<p><b>Sketch of Bone</b> (Draw the bone in this space.)</p>
